In Our Prayers...

Today in our prayers,

- We pray for Laura Collins, who is beginning a 4-6 week inpatient healthy eating treatment program next Wednesday in Philadelphia.
- As Earth Day approaches (April 22) we pray for our planet earth, giving thanks for God's wondrous creation, and we consider our calling and commitments to its care and restoration.
- We pray for our communities as they consider their moral and legal responsibility to provide affordable housing. We pray for blessing on an Oelhaf House resident who has found an apartment after many months of searching.
- We pray for peace in Gaza and Israel, and a return of hostages.
